EXPERIENCE

Meta

Bellevue, WA

Staff Software Engineer, Horizon OS Access

Jan 2024 – present

- Lead the **access management platform** for Quest devices, with a retention of **6 million monthly active users**.
- Responsible for the APIs for log-in, access management, and token issuance for Oculus as well as linked Meta accounts like Instagram and Facebook, an initiative that aims to **platformize our API layer** to support our long-term vision of providing the Horizon OS as a platform to OEMs.

Microsoft

Redmond, WA

Principal Software Engineering Manager, M365 Copilot

Mar 2020 – Jan 2024

- Managed a team of 10 engineers to build the mobile framework for M365 Copilot
- I led the **M365 Copilot experiences team** that built a mobile UI SDK and a scalable API platform that allowed Copilot experiences to be consistent and shared across all M365 apps: Outlook, Teams and Office, reaching out to **1 million weekly active users**.
- Engineering manager for the Assistant team. Scaled my product into a feature that required a team. Expanded our feature sets to include more voice commands, education, first run experiences, and teaching moments for better retention and engagement.

Amazon

Seattle, WA

Software Engineer, Alexa Mobile Android

Jun 2018 – Mar 2020

- Tech lead for **Alexa Mobile Partner Distribution**. Was responsible for the design, development, delivery and operations of the Hands-Free feature on Alexa delivered to **10 million customers through 2019-2020**.
- Built the architecture for **Alexa Hands-Free**. Designed a service for customers to receive personalized Alexa responses on Android. Was responsible for communication and design with SoCs like Qualcomm and MediaTek to have common API contracts between business partners

Samsung

Noida, India

Software Engineer, Android Framework R&D

Jun 2014 – Jun 2016

- Designed, implemented and shipped a 'Smart Notifications' feature, that was awarded with an **A1 patent**. This feature allows customers to mute notifications from groups of apps during focus hours.
- Was responsible for the implementation of the lock-screen and notification panels for Samsung flagship devices that required OS upgrades
